

IMPROVEMENT DISTRICT #1

aka ALTA ACRES WATER DISTRICT

Policy Regarding Parcel Owner and Public Use of District Property:

Improvement District #1 owns property on which it has established wells and related equipment. It is the policy of the district not to allow public or parcel owner access or use of these properties due to the need to protect the quality, purity and safety of the district's water sources, supplies and equipment. This policy is also needed in order to protect the safety of any one who might want to use the properties because they are unimproved, unsupervised and the equipment can be dangerous. Only members of the district governance committee, or anyone specifically authorized by the committee, can access or utilize these properties and only for the needs of the district. Such property will be posted with "No Trespassing" signs.

Improvement District #1 has also installed and owns equipment on property owned by others within the boundaries of the district. It is the policy of the district not to allow public or parcel owner access to or use of this equipment due to the need to protect the quality, purity and safety of the district's water sources, supplies and equipment. This policy is also needed in order to protect the safety of any one who might need to service or utilize such equipment in behalf of the district because this equipment can be dangerous. Only members of the district governance committee, or anyone specifically authorized by the committee, can access or utilize this equipment and only for the needs of the district. Such equipment and any building housing such equipment will be posted with Danger Warning signs.
